DESCRIPTION

This course will use published manuscripts to review and summarize all concepts seen within the Pharmacoepidemiology Module. This session will be interactive with questions and answers.

LEARNING OBJECTIVES

- Develop critical appraisal skills for analyzing and reading scientific articles
- Identify and analyze the main methodological strengths and weaknesses of scientific articles
- Develop collaborative and teamwork skills with respect to discussions surrounding scientific articles
- Demonstrate enhanced presentation skills with respect to summarizing scientific articles

ADDITIONAL INFORMATION

Trainees in our 2024-2025 cohort will be divided into 2 groups and each group will present an article review during the journal club.

1. Cleary B et al. Methadone, Pierre Robin sequence and other congenital anomalies: case-control study. [10.1136/archdischild-2019-316804](https://doi.org/10.1136/archdischild-2019-316804)

2. Andersen SL et al. Maternal Thyroid Function, Use of Antithyroid Drugs in Early Pregnancy, and Birth Defects. [10.1210/jc.2019-01343](https://doi.org/10.1210/jc.2019-01343)

HOSTED BY

Dr. Anick Bérard
